

RHINEBECK ANIMAL HOSPITAL PUPPY WELLNESS PLAN

DOGS AGES 6 WEEKS TO 8 MONTHS

The doctors and staff at Rhinebeck Animal Hospital are committed to offering quality, comprehensive health care for your pet and finding a way to make this care affordable to you. We will focus on body systems that are most affected by aging. Our goal is to identify clues of disease early enough so that we have the best chance to control or cure them. In this way we can improve your pet's chance for a longer, healthier and happier life.

Skillfull Care ~ Gentle Hands

PUPPY WELLNESS PLAN INCLUDES

Unlimited well or sick examinations: Anytime during the covered 8 months, your pet can be seen for wellness, minor or major concerns. Your wellness plan covers the cost of the complete physical exam performed during each visit. Your veterinarian may make recommendations for further testing or treatment plans and will happily provide an estimate for those costs.

- ♥ **An individual vaccination protocol:** Typically these vaccinations include distemper, hepatitis, parvovirus, rabies, Lyme disease, leptospirosis and bordatella. This protocol will be tailored to your puppy's individual lifestyle.
- ♥ **Urinalysis:** A urine sample is used to assess the health and function of the urinary system including the kidneys. This must be done before or during a spay surgery.
- ♥ **Fecal Exam;** This test examines feces for common parasites that can be completely undetectable at home, including the protozoan parasite, Giardia.
- ♥ **Blood Chemistry and Clotting Profile:** This blood test surveys the internal organ function and can detect congenital abnormalities that may otherwise be undetectable.
- ♥ **Complete Blood Count:** This test looks at cells in the blood and can detect anemia, infection, inflammation, clotting ability and blood cancers.
- ♥ **Microchip:** A microchip can be placed at the time of neuter. It can be life saving if your pet were to be lost or stolen.
- ♥ **Neuter Surgery:** This includes all anesthesia and surgical fees as well as post operative pain control.

COST AND DISCOUNTS

Following enrollment, the plan is effective until 8 months of age.

One time payment at enrollment: **\$750.20**
with a 25% savings of \$250.10

Four payments of **\$212.55** over first four months.
with a 15% savings of \$150.10

Enrollment in the Wellness Plan also entitles you to a 10% discount on any additional diagnostic procedures, treatment procedures, additional laboratory tests or services incurred up until 8 months of age. This does not apply to medication.

**YOUR PET'S HEALTH IS OUR
PRIMARY CONCERN.**
