

RHINEBECK ANIMAL HOSPITAL SENIOR WELLNESS PLAN

DOGS AGES 7+

The doctors and staff at Rhinebeck Animal Hospital are committed to offering quality, comprehensive health care for your pet and finding a way to make this care affordable to you. We will focus on body systems that are most affected by aging. Our goal is to identify clues of disease early enough so that we have the best chance to control or cure them. In this way we can improve your pet's chance for a longer, healthier and happier life.

Skillfull Care ~ Gentle Hands

SENIOR WELLNESS PLAN INCLUDES

3 well or sick examinations: Anytime during the covered year, your pet can be seen for wellness, minor or major concerns. Your wellness plan covers the cost of the complete physical exam performed during each visit. Your veterinarian may make recommendations for further testing or treatment plans and will happily provide an estimate for those costs.

A complete wellness laboratory screening: Some diseases are undetectable with just physical exam alone, therefore laboratory screening gives us a picture of what is happening internally.

- ♥ **Blood Chemistry:** This blood test surveys many of the organ systems in the body to make sure they are working properly.
- ♥ **Complete Blood Count:** This test looks at cells in the blood and can detect anemia, infection, inflammation, clotting ability and blood cancers.
- ♥ **Urinalysis:** A urine sample is used to assess the health and function of the urinary system including the kidneys.
- ♥ **Fecal Exam:** This test examines feces for common parasites that can be completely undetectable at home.
- ♥ **Heartworm Test:** This blood test will detect heartworms, life-threatening parasites that invade the heart and lungs.
- ♥ **Thyroid Function Test:** This test will assess increases and decreases in thyroid function
